

NOVICE FIELD FENCE MAPPING

The black dots represent post locations. All panels are not the same size.

Rent a metal detector (Saanich Rentals) to locate the post sleeves that are buried in the ground.

Other Equipment needed: shovels + electric drills (with a 5/8" hex socket bit) to fasten the fence clamps

You will need dig down a bit to uncover the post sleeve.

There are 23 outfield panels + 2 panels on the 1st and 3rd base lines

The panels are stored in the dugouts starting with the middle outfield and working back towards the dugouts
